DETAILED ACTION

1. Amendment filed March 30, 2010 has been acknowledged. Claims 1, 4, 6, and 7 remain pending in the application.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "sealing elements" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claim 1 is objected to because of the following informalities:

In line 2, "neck" and "bottle" should be preceded by "a".

In lines 3 and 5, "bottle" should be preceded by "the".

In line 10, "siphon structure" should be preceded by "a".

In lines 28 and 29, "mounting part" should be preceded by "lower".

In lines 28 and 30, "cover" should be replaced with "upper covering part".

Appropriate correction is required.

Specification

4. The abstract of the disclosure does not commence on a separate sheet in accordance with 37 CFR 1.52(b)(4). A new abstract of the disclosure is required and must be presented on a separate sheet, apart from any other text.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1, 4, 6, and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
7. Claim 1 recites the limitation "the dispensing parts including valve and opening elements" in line 6. There is insufficient antecedent basis for this limitation in the claim.
8. Claim 1 recites the limitation "the tube of siphon structure" in line 9. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

9. Claims 1, 4, 6, and 7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

10. Applicant's arguments with respect to claim 1 have been fully considered and are persuasive. The previous rejections of claims 1, 4, 6, and 7 have been withdrawn.
